

Evolution by Lovens Presume

Chorus

Life lessons can either make you or break you,
So I have to make it benefit me
Life lessons can either make you or break you,
So I need to make it build me
To focused on the prize, treat it like it's do or die
When I'm M.I.A and they ask me why I tell them
Life lessons can either make you or break you

Verse 1

Some may never understand, well that's just unfortunate
Dream chasing is the plan, no matter what they say, got to stay in
my lane
Cause my GPS leading me to success, only a few can relate
The years go by, it's a ticking time bomb
Got to make it worth it, before it goes off
Learned so many things especially that

Verse 2

Nothing will deter me from the path that I'm destined for
Eventually they'll be singing my songs
I'm in love with the process, touching hearts from a distance
Can't explain what I witness but I love it
Those experiences are one in a million
Learned so many things especially that
