

Lonely No More by Lovens Presume

Chorus

I found you, waited for what was true
Now I'm lonely no more
When I found you, tears no longer slip through
Now I'm lonely no more

Verse 1

Been going down this empty road, trying to find my way home
They just see the flashing lights, while I'm just trying to get it right
I found love, when I never thought I'd find it
I've been searching for so long, now my hearts complete

Verse 2

Thinking to myself, why is my heart racing? Whenever I see you.
I can't explain it, I want this feeling forever
Never want to go back to how it used to be, how it used to be

Verse 3

People talking 'bout the situation, but we don't owe them any
explanation
Baby you're my persuasion, I'll give you my everything
When you're feeling down, I'll be around
Right there to pick you up yeah, I'll guide you through the rain &
snow
Just let me know

Bridge

After searching for so long, I definitely found the one & that's you
Time to take the world by storm with you by side (yeah)
Listen, I'm ready to show you how much I feel everyday & every
hour
(Listen, Look) Life so short, gotta show you how I really feel

Never Knew Love Like This Before
